

 HACK
 ILLINOIS

INTRODUCTORY **SPONSORSHIP DOCUMENT**

HACKILLINOIS 2026

sponsor@hackillinois.org
hackillinois.org

Dear Potential Sponsor,

HackIllinois, UIUC's flagship hackathon, is back! Hosted at one of the top computer science schools in the nation, HackIllinois brings together 900+ top-tier students not just from UIUC, but also from schools like UChicago, Northwestern, and Purdue.

What makes HackIllinois unique is its talent density. UIUC has a strong culture of launching students into industry, emphasizing real world engineering and applied research in its curriculum. Our diverse group of participants include past interns at companies like Citadel, Meta, Google, Nvidia, OpenAI, Databricks, Jump Trading, Stripe, and more.

HackIllinois features two tiers of participants:

- General attendees, who go through a brief application process.
- **Pro Track** participants, who are selected through a more rigorous, two-step application which involves an online Technical Assessment testing Data Structures and problem-solving ability.
 - These students tend to be top performers with strong internship experience or competition backgrounds. **<15% of participants were pros** in 2025.

All sponsors receive:

- Brand placement on our website, digital materials, and swag.
- Opportunities to mentor, host tech talks, or engage via a sponsor booth.

Looking for more?

We offer high-touch recruiting opportunities for partners looking to go deeper:

- Access to a **resume book** and participant info of all HackIllinois attendees for talent scouting
- Tailored challenges: trading (including poker) games, CTFs, technical tracks, and more.
- **1:1 sessions with participants** from our advanced "Pro" track.
- Opportunities for your mentors to showcase technologies and work directly with students.
- **Custom private events or workshops**, fully designed and executed in close collaboration with your team; if you want it, we'll make it happen.

The following pages will provide insight into the role of a sponsor at HackIllinois 2026. Our packages are detailed below but we encourage you to reach out to discuss custom benefits and sponsor needs.

Let's build your next class of interns: sponsor@hackillinois.org

Best,
HackIllinois Outreach

Perk Description

Pro Track Resume Directory

Gain access to “Pro” candidates, including their filtered resume book entries and direct contact info.

On-site 1:1s with Pro Candidates

Schedule 1:1 sessions with high-potential candidates through HackIllinois during and after the event.

Company Expo Booth

Connect with participants during our in-person sponsor expo, a career-fair style event enhanced with a scavenger hunt that gamifies engagement and drives student traffic to company booths. The deluxe upgrade includes an additional table for increased presence.

Host a Tailored Challenge

Design a problem (Poker game, CTF, puzzle, etc.) that reflects the skills you value. Interested participants opt in, giving you a way to connect with candidates who are aligned with your company’s domain and thinking style.

Sponsor a Track (+ Lounge Upgrade)

Sponsor a project category of your choosing, fostering innovation in that area. (e.g. track requiring use of a provided API or tool, solving a specific problem, etc.). The lounge upgrade provides a centralized location where participants are able to interact with mentors and company representatives while working together with others in the same track.

Engineering Tech Talk / Company Showcase

Present an engineering talk showcasing the technological challenges and solutions within your company.

Interactive Workshop / Event

Lead a workshop, teaching or demonstrating a skill, tool, product, or API or fund a miscellaneous short event lasting between 30 minutes to 1 hour, tailored to the event's needs.

Mentors at HackIllinois

Provide industry experts from your company to guide and mentor our participants with their projects.

Pre-HackIllinois Event

Sponsor an interactive online event to showcase your company's tools and ways that beginners and participants can use them in their projects.

Sponsored Meal

Sponsor a meal that our participants will enjoy. You will also get the opportunity to interact with the participants in an area dedicated for the meal.

Access to Mailing List

Spread information and recruiting opportunities to participants on our mailing list leading up to the event.
